SUMMARY

Results-driven Senior Front-End Developer with 6+ years of experience delivering responsive, high-performance web applications using React.js, JavaScript (ES6+), and modern front-end frameworks. Skilled in transforming complex business requirements into intuitive, scalable user interfaces. Expertise in UI/UX design, performance optimization, reusable component architecture, and testing with Jest and React Testing Library. Proven experience in logistics tech, improving shipment visibility, contract management, and route optimization.

SKILLS

Frontend

HTML5, CSS3, SASS, Bootstrap, Tailwind CSS, JavaScript (ES6+), React, Redux

Testing

Jest, React Testing Library (RTL)

Build & Version Control

Webpack, Babel, NPM, Git, GitHub

Methodologies

Agile, Scrum, SDLC

Tools

Figma, Chrome DevTools, Postman

WORK EXPERIENCE

Senior Software Engineer

April 2024 - Current

WiseTech Global

- Developed rating and routing UI for Ocean and Motor carriers, improving operational efficiency by 30%.
- Managed contract workflows for carriers and shippers, streamlining rate management and optimizing shipment routes.
- Implemented micro front-end architecture, enhancing modularity and deployment flexibility.
- Built automated testing frameworks using Jest and RTL, increasing test coverage by 45%.
- Collaborated with cross-functional teams to improve shipment visibility and reduce manual errors.

Senior Software Engineer

May 2021 - March 2024

Blume Global

- Designed and deployed scalable React architectures, reducing page load times by 40%.
- Built reusable components and optimized API integrations, improving shipment visibility by 99%.
- Enhanced UI/UX for logistics tools, reducing user errors by 20% and increasing adoption.
- Mentored junior developers on React best practices and testing strategies.

Project Engineer

June 2019 - May 2021

Wipro Limited

- Migrated legacy front-end applications to React.js, improving maintainability and user experience.
- Built automated monitoring tools, reducing manual workflow tracking by 40%.
- Led UI optimizations, reducing load times by 25% through lazy loading and asset management.

EDUCATION

Madan Mohan Malaviya University of Technology, Gorakhpur

B.Tech
